

Thank you Shannon,

We love our house!

We knew when we were house-hunting that the property stood out in our minds – it just “felt right”. Since we bought the house and moved-in we’ve come to understand all the design details that Shannon added and the thoughtful decisions he made that make the house so live-able. I also appreciate the construction quality and the well-planned landscaping.

We were in some houses with a similar floor plan and that really illustrated to us how the time and effort Tierney Construction put into the details really made the house a home. The combination of tasteful architectural woodwork, nice ceiling treatments and the great level of fit-and-finish keeps the place looking great. I think everyone that comes to the house compliments the flow of the house and most notice some nice touches they “wish they had in their house”.

Shannon has always been willing and able to answer our questions, he even came over to personally tell me about all the landscape plants and how to care for them.

I recommend Shannon (and his houses) to anyone who is looking to buy or build in the area. I only wish he could build homes for our friends and family in other parts of the country.

We have really enjoyed living in Greenville and we realize the house is a big part of that. It’s been perfect for our family and great for guests and parties too.

Sincerely, Ray & Sage
